

Give Courteous Attention When Telephoning

Concentration and courteous attention given to a telephone conversation is a mark of respect that will be appreciated.

Frequent interruptions and requests to repeat mar the pleasure of the talk. Concentrate on what is being said and talk with a smile. Courtesy is like oil to machinery—the lack of it will cause friction and friction in telephone talking is a thing to be avoided.

Local merchants put into practice Monday morning the No-delivery system and housewives have had their own delivering of goods to see after. It has been a week of buy-your-groceries-and-carry-them-home-with-you. And if the war keeps up the habit will grow on us and we will gradually learn to do these things for ourselves.

Since our mention of wheat in this county in our last issue news has come to us of the best crop yet. A. H. Harvey of the fourth district had three and one half acres from which he threshed 128 bushels, a crop that would make the averages in the grain belt of the Northwest green with envy.

Gov. Tom C. Rye was scheduled to visit Somerville Monday of this week in the interest of his candidacy for the Democratic nomination for United States Senator from Tennessee, but did not show up to fill his engagement. So far as The Falcon has been able to learn, no one here heard anything from him as to why he cut the engagement here.

Grove's Tasteless Chill Tonic destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 60c.

The Falcon has been asked to state that the annual meeting of the local branch of the Red Cross will be held in their rooms over the Fayette County Bank on Saturday afternoon at 4 o'clock and it is desired that every member be present, men and women. The election of officers for the coming twelve months will be held and it is desired that all members take part in the choice of these officers.

Now that the telephone and telegraph lines of the country have been taken over by the Government, it should be easy enough to have a telegraph office put in at Somerville to give a much needed service here. For several years we have been without a telegraph service here and message sending has been cumbersome and uncertain. With proper effort there is little doubt that the authorities will give Somerville this much needed service if the people here will get busy and demand it.

We are asked to state that the country is calling for 25,000 volunteers for nurses at the present time and that Tennessee has been given the task of furnishing 500 of these. They must be between 19 and 35 years of age and with a high school education. They receive board, laundry and \$15 per month during their three years of training. This number is asked for the purpose of relieving that many graduate nurses for overseas service. Application can be made to the local branch of the Red Cross who is authorized to accept volunteers.

About the strongest endorsement we have seen given a candidate for a state office was given here last week when the Austin Peay Booster train visited Somerville with one hundred Clarksville business and professional men in the interest of Mr. Peay's candidacy for Governor. The trip was planned by these friends of his and the entire expense bill was borne by them without the advice or approval of Mr. Peay. The speeches made by his townsmen were a most pleasing endorsement for the gubernatorial candidate and did his cause good here and elsewhere.

CASTORIA For Infants and Children In Use For Over 30 Years

The first of the present week saw good rains in most parts of the county, a strip from Williston northward past Somerville about six or seven miles, making about ten or twelve miles wide in all and about the same from a point east of Oakland to a few miles east of Somerville, being the only exception. This strip is still as dry as can be and much damage has already been done, particularly to the early corn which is now past redemption and cannot make a half crop. Cotton has not suffered so much and the crop is promising in the main throughout the county, the need-rain in the belt mentioned as dry.

Another old land mark of Somerville is gone in destruction by fire on Tuesday about noon of the residence so long owned and occupied by Dr. T. B. Yancey as his home. The volunteer fire fighters did their best, but the destruction of the building was complete with a large part of the contents. The building was occupied by Mr. Buford, Mrs. R. M. Taylor and Mrs. Manley and besides the furniture, being used, there was much belonging to the three stored in the third story of the building, all of which was lost. The property had just been sold by C. D. Wailies to N. M. Gibson and was undergoing repairs when it burned. The house was built in the early fifties and was one of the oldest residences in town.

LIKE AN ELECTRIC BUTTON ON TOES

Tells Why a Corn is so Painful and Says Cutting Makes Them Grow.

Press an electric button and you form a contract with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard croaft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. The drug freezone is harmless and never inflames or even irritates the surrounding skin.

Get Ready.

Now is time that your hens will moult and shed their feathers. This process is rather slow and Nature should be assisted. B. A. Thomas' Moulting Remedy will help your hens to moult causing them to shed earlier and be ready to lay when eggs are highest in the winter. If this remedy does not make good, we will. For sale by W. TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tonic is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tonic is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tonic instead and feel fine, full of vigor and ambition.

To Improve Your Digestion.

"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. Since taking them my digestion is fine."—Mrs. BLANCHE BOWERS, Indiana, Pa. 9-1

The Best Plaster.

A piece of flannel dampened with Chamberlain's Liniment and bound over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much. 9-1
